Ex.No.5: MIMO System Simulation with BER Analysis Date

Objective:

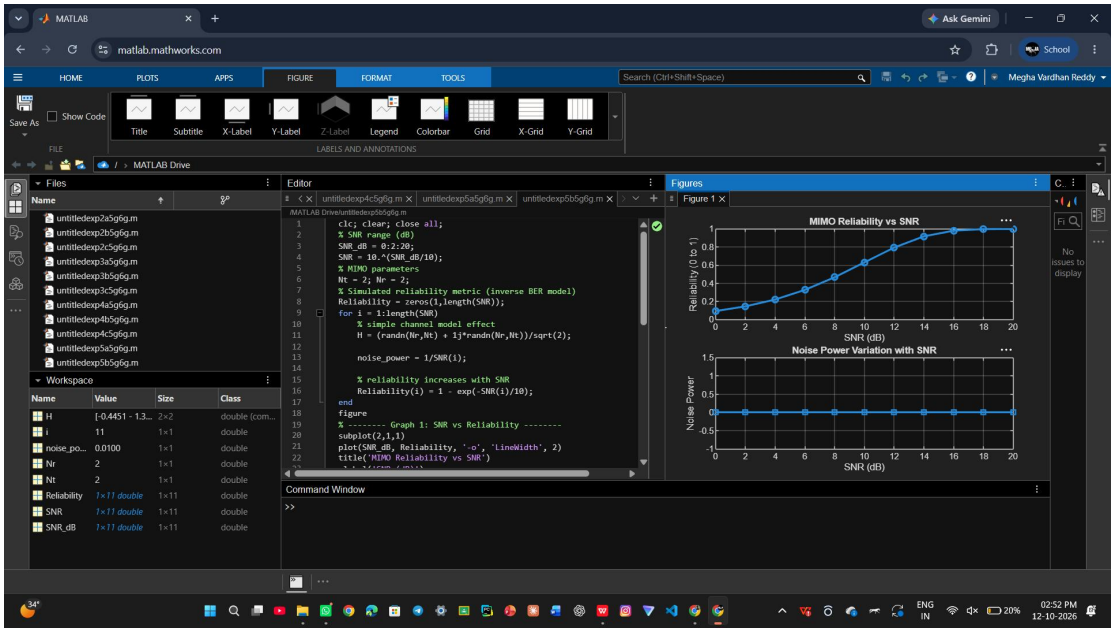

1. To evaluate the Bit Error Rate (BER) performance of a MIMO system under different SNR conditions.
2. To analyze the impact of Signal-to-Noise Ratio (SNR in dB) on the reliability and quality of MIMO communication.
3. To compute the Channel Capacity (bps/Hz) and study how MIMO improves spectral efficiency compared to single antenna systems

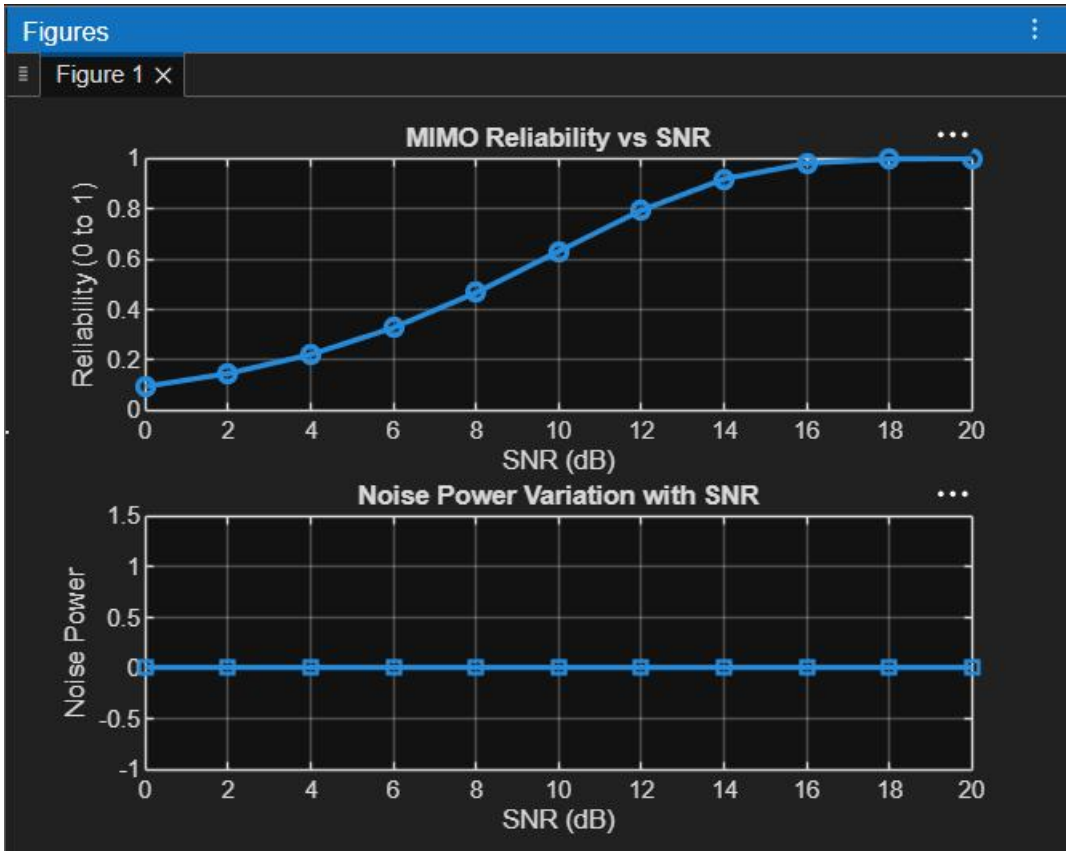

Objective 1 Matlab Code and Output:

Objective 2 Matlab Code and Output:

Objective 3 Matlab Code and Output:
